OUTDOOR BOSSANOVA

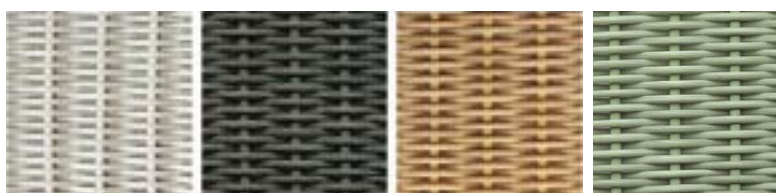

OUTDOOR LLOYD LOOM

Our All Weather Lloyd Loom collection is woven from Rehau cord. The furniture is fully UV resistant, weather proof and can be used inside or left outside all year round.

We believe that our manufacturing process is unique to Lloyd Loom of Spalding. Our chair frames are produced from high quality aluminium or galvanised steel. The Lloyd Loom look is achieved by weaving together strands of synthetic material to emulate the twisted paper of our traditional material. Each vertical strand in the warp, also contains a stainless steel wire just like traditional Lloyd Loom material. Our outdoor furniture is hand woven in Java, Indonesia.

Our outdoor pieces are woven from a selection of four colours, please check the item descriptions for colour availability. Please contact us for information about cushions and fabrics.
